Gazprom · Senior Product Designer

2025 — Present

Designed authentication flows for Gazprom Media's unified SSO platform (RUTUBE, Premier, Yappy). Relaunched GID Key — a push-based authenticator as an SMS alternative. Designed the core flow for GID Hub, a digital solutions marketplace, from scratch. Conducted UX research on authorization patterns, formed and validated hypotheses. Reduced interactive prototype time-to-market using Cursor and Xcode.

English — B2

Czech — B2

Russian — Native

Results: GID Hub — supplier growth ↑90% in 2025, publish conversion ↑53%, bounce rate 1%. Gazprom ID — reduced SMS dependency and fewer repeat code requests

NBU · Senior Product Designer

2023 — 2025

Designed core fintech flows for MilliY — a banking app by the National Bank of Uzbekistan. Owned the full design cycle across payments, transfers, cards, loans, and deposits: from discovery and hypothesis prioritization to dev sync and post-release design review. Scaled the design system to 120+ components. Identified drop-off points through analytics and usability testing, then redesigned flows based on findings.

Contented UI/UX Designer

2022 — 2024

Results: task completion time ↓32%, App Store rating 4.6 / Google Play 4.3, installs ↑12%.

Also I worked with VTB, Rive Gauche, Lanit, AIC Design Agency as a Product and UI/UX designer.

2020 — 2023
